ZUPER

3 X ZUPER AIR CONCEPT.

These three bad boys has got a brand new AIR CONCEPT look. When SUPREME and HYPER is keeping it's color design from 15/16, the ZUPER sticks needed something new. The double fading of the shaft is giving us something unique that we have never tried before, and with these bright pastel colors on a matt surface, we feel that these three sticks might rock the season 16/17.

AIR CONCEPT

3 X HYPER AIR CONCEPT.

HYPER

The HYPER AIR SL 27 was our most sold stick season 2015/2016, and we know that HYPER is the shooters choice. Therefore we maximize this series as a "shooting" series by combining the HYPER blades and the three Curve shafts in different angles together. On these pages we can present an AIR curve for all different customers, in a clean and bright design.

AIR CONCEPT

3 X SUPREME AIR CONCEPT.

SUPREME

The SUPREME AIR has been such a hit for us during the last years. Starting from a development of the MP AIR, the SUPREME AIR 27 has been our most sold stick during the last year. Blue has been a great color for the 27 flex stick so for the coming season an even lighter blue will hit the market. All SUPREME sticks are matt, bright and in one single color.

ALL OUR 2016/2017 STICKS ARE HAND MADE AND THE CARBON LAYERS IN EACH STICK ARE MADE BY ROLLING TABLE TECHNIQUE. THAT'S QUALITY.

RIPPLE

RIPPLE SERIES GONE FADING.

The RIPPLE sticks are entering it's fourth season and we still think that this shaft technique has the best looking design out there, and of course the best speed provider on the market. Great technique with the kick motion effect providing harder shots in a new faded costume.

GLOVESTICK

MORE PLAYERS JOINING THE GLOVESTICK PROJECT.

Starting as a crazy idea, we were more than satisfied with the season one sales of GLOVESTICK and the two models we had for 15/16. Now we launch the series with a Curve model for that type of player, and a JR model for the younger ones. GLOVESTICK provides superb grip, superlight shafts with optimal balance, long term durability and maybe the most important: you point out from the rest.

THE BEST **OF 2** WORLDS.

BY COMBINING SUPREME AND HYPER WE GIVE YOU ZUPER.

*H*YPER

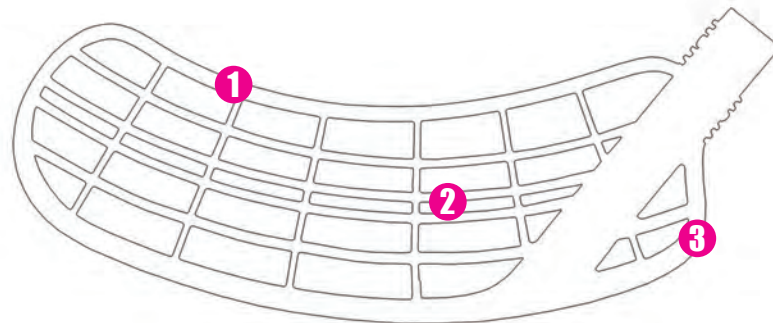

HYPER has been in our blade range for two years and is providing a stiff and firm blade making it the choice for the shooter. The blade has a large pre- hook and concavity, giving the player a tool for both sweepers and slap shots.

- 1** Reinforced heel area.
- 2** T-bars stabilizing the entire blade.
- 3** Ripple design for aggressive look.

*S*UPREME

SUPREME is a blade model designed for the technical type of player. With the functionality and the top player in mind, SUPREME was created with terms of stability and light weight construction in mind.

- 1** Light weight construction.
- 2** Double bar stability.
- 3** Stiff heel edge.

*Z*UPER

The best of two names and the best of two blades. We give you the missing piece on our range. We give you ZUPER.

NEW
SEASON 16/17 - SEASON 17/18

A steady and smooth playing surface with the same concavity all over provides ball control and steady passes for the allround type of player.

The pre hook angle is slightly more opened compared to SUPREME to present the mix of HYPER and SUPREME in one blade.

The concavity is a mix of HYPER (10mm) and SUPREME (6mm) giving the new ZUPER blade an 8mm optimized concavity. ZUPER is the missing piece in our blade range.

Reinforced heel area providing torsional stiffness for optimal shot resistance, making it possible to have lower weight in the top of the blade for optimal stick balance.

SUBLIMATION – CUSTOMIZED TEAMWEAR MAKE YOUR OWN!

1. **CONTACT.**

The first step for creating your customized team jersey is to contact us with your ideas. Normally we go through some general ideas, we take a look at your sketches, find the right model and we start to design that unique look for you and your team.

2. **DESIGN.**

Step two is to offer you and your team a design that you are looking for including various colors, logotypes, numbers and names. With our design team ready daily we can fulfill the most of your wishes in presenting you a sketch quickly by e-mail communication.

3. **PRODUCTION.**

When you accept the design proposal we go into production. We have quick and modern factories ready 24/7. The design is burned into the fabric by sublimation technique to create that long lasting design, a soft garment with a high quality finish without any printed transfers on it.

4. **DELIVERY.**

Sublimating jerseys takes some weeks but it's definitely worth the wait. The more prepared you can be with logotypes, names and sketches the quicker the delivery will be. Before delivery we go through piece by piece and then deliver it to your team.

**DESIGN PROPOSAL FROM US – NO MINIMUM QUANTITY – EASY RE-ORDER PROCESS
